PROFESSIONAL SUMMARY

Junior Front-End Developer transitioning into the technology industry, currently pursuing a degree in Systems Analysis and Development, expected to graduate in December 2026. Skilled in React.js, Next.js, TypeScript, JavaScript, Tailwind CSS, Node.js, and Supabase.

Brings approximately four years of corporate experience at established companies, including Cargill and Döhler, with a strong background in data accuracy, technical documentation, process organization, and meeting deadlines. Seeking a Junior Front-End Developer opportunity in a fully remote environment.

TECHNICAL SKILLS

- **Front-End:** React.js, Next.js, TypeScript, JavaScript, HTML5, CSS3, Tailwind CSS
- **Back-End & Databases:** Node.js, Supabase, MongoDB
- **Tools & Version Control:** Git, GitHub
- **Additional Skills:** Software Testing, DevOps Fundamentals

PROFESSIONAL EXPERIENCE

Application Technician II | Cargill Agrícola | May 2022 – August 2024

- Entered and updated raw material information in internal systems, ensuring data accuracy and consistency.
- Organized and monitored operational processes and requests, ensuring deadlines and priorities were met.
- Managed inventory and monitored budgets and purchase orders.
- Planned and coordinated departmental schedules and activities.

Junior Quality Control Analyst | Döhler Latin America | June 2020 – April 2022

- Performed technical analyses and quality control procedures, including gas chromatography.
- Recorded, reviewed, and documented analytical results in SAP, identifying data inconsistencies.
- Organized laboratory samples and processes in accordance with quality standards.

Junior Laboratory Analyst | Eco System Environmental Preservation | November 2019 – July 2020

- Coordinated laboratory schedules and prepared samples, mobile phases, and calibration curves for analytical procedures.

- Performed analyses using Ion Chromatography (IC) and High-Performance Liquid Chromatography (HPLC).
- Reviewed, verified, and reported analytical results.
